TESTIMONY IN TRIAL IMPLICATES BECKE

Witness Swears He HEARD

Him Threaten To Kill The Gambler.

By Bulletin Leased Wire.
London, Oct. 11.—Thomas, Coun-

the eye-witness of the Rosenthal murder, is expected to sail for New York tomorrow on board the *Mauretania*.

Coupe returned to his home in Preston today with the intention of

joining Mr. Deford at Liverpool to-morrow. He makes no secret of the fact that he considers his return to New York a very dangerous under-

According to his agreement with the District attorney, Coups returned to New York with his expenses paid.

and his life insured for \$10,000. The state will bear the cost. These were the terms he exacted before he would consent to go back and testify at the trial.

Becker trial. His return passage to England will also be furnished by the state.

New York, Oct. 11.—The first testimony implicating Charles Becker, in the murder of Herman Rosenthal, was given today by a former partner of the

trial of former police officer accused of instigating the murder of the gambler. It was testified by Maurice

Labau, a hanger-on of the underworld, that Becker had said to Jack some about three weeks before the crime, "If that — Rosenthal is n

Labau, who was also an eye-witness of the murder, identified in court 12 day "Gyp, the Blood" and "Lefty

Louie," as two of the men who fired the shots that killed Rosenthal, and William Shapiro, as the driver of the "murder car."

Proved Star Witness.
"Gyp" and "Lefty," he said, he had known for more than a year and he also swore that "Dago Frank" like

wise an acquaintance, was in the group when the shots were fired. The witness also knew Rosenthal. He wanted to be such a close witness for

proved to be such a star witness for the state that John F. McIntyre, chief counsel for the defendants, spent two hours and a half trying to break down

his testimony, Labau was only discovered by District Attorney Whitman a day or two ago, with his brother, Jacob, in jail in Newark, N. J., on a

forgery charge. The brothers claimed to have been "framed up" by somebody. The New York prosecutor secured their release on parole and, ac-

cording to the witness, promised to "help them in every way if they could prove their frame up." Labau said that he heard Becker utter his al-

leged death threat against Rosenthal in the steam room of the Lafayette baths and that he stood within two or three feet of the police officer at

At this time. He did not know Becker well, he concluded, but had seen him in a gambling house on Allan street.

MANY WILD BEASTS KILLED.

Slaughter of Leopards, Wolves, Jungle Kings and Snakes Everywhere. London, Oct. 11.—According to a report just published in Simla, the number of wild animals destroyed in India in 1911 was 21,446, as compared with 19,332 in 1910.

Included 1,424 tigers, 3,552 leopards, 1,424 wolves. Nearly 175,000 snakes were destroyed as against 91,126. This increase is largely accounted for by the offering of rewards by the Burma government. That this action was necessary is proved by the fact that in one area the paddy fields were so snake-infested that their cultivation was impossible.

The number of cattle killed by wild animals was 31,759 against 24,975, and by snakes 16,533 as against 16,598.

With regard to snake bite of human beings, it is said that in the Bombay presidency the United provinces and Eastern Bengal and Assam, the use of the Lander Brunton's lance is reported in a number of cases to have resulted in a high proportion of cure. As in previous years, however, the statistics relative to the successful use of this instrument can only be accepted with reservation.

Exporting English apples. Haverham, Oct. 11.—Owing to the increasing demand for English apples 144 cases were recently shipped at Southampton for export to Buenos Ayres.

CAR PLUNGED INTO RIVER. Green Bay, Wis., Oct. 11.—One man was killed, one young woman probably fatally injured and another girl barely escaped death when a automobile in which they were riding ran off a street in this city early today into the East river. The man killed is Louis G. Kirschner, of Appleton, and Miss Markhart was probably fatally injured. Miss Christie Mark was slightly injured.

"SMOKEY JOE" WOOD'S SPEED BALL WINS FOURTH ENCOUNTER FROM GIANTS BEFORE 36,000 FANS AT BUSH STADIUM

Red Sox Win 3 to 1 in Pitching Duel Between Left Terrier and Wood—Nervousness Disappears and Teams Play Real World's Series Ball—Fletcher Redeems Himself For Previous Poor Work—Sensational Catches By Murray and Wagner.

STANDING OF TEAMS.

Team	W.	L.	Draw	Pct.
Boston	10	2	1	.688
New York	1	2	1	.333

New York, Oct. 11.—The Boston Red Sox, winners of the American League pennant today, overcame the New York National League champions by a score of 3 to 1 in the fourth game of the world series.

The Red Sox have now won two games and the Giants one of the second contest having ended in a tie. The score today was 3 to 1 in favor of the Red Sox. The game was played at the Bush stadium, which was packed to the rafters.

"Smokey Joe" Wood, whom today's Boston fans called "the left terrier," was the winning pitcher for the Red Sox. He pitched a complete game, allowing only one run, one hit and one error.

The infield was won from a night's rest and Wood started on the mound. He pitched a complete game, allowing only one run, one hit and one error.

He snapped his thrower to first base out of the runners by a step. With one run needed in the eighth, Devereaux pitched a grand slam. The crowd roared as the ball sailed over the fence.

Murray's Great Catch. Yerkas and Fletcher also started in the eighth inning, while Murray caught a three-base hit at the beginning of the fifth. The inning back to the concrete the Giant outfields leaped into the air and clutched the ball with one hand.

There were thirteen strikes out during the game. For Boston, Cash struck out twice, and Lewis, Stahl and Wagner. For New York, Devereaux struck out twice, and Lewis, Stahl and Wagner.

With today's game the players closed the season. For Boston, Cash struck out twice, and Lewis, Stahl and Wagner. For New York, Devereaux struck out twice, and Lewis, Stahl and Wagner.

There was a pitching duel between the two teams. The Red Sox won the game, 3 to 1. The crowd was estimated at 36,000.

1055, 1056, 1057, 1058, 1059, 1060, 1061, 1062, 1063, 1064, 1065, 1066, 1067, 1068, 1069, 1070, 1071, 1072, 1073, 1074, 1075, 1076, 1077, 1078, 1079, 1080, 1081, 1082, 1083, 1084, 1085, 1086, 1087, 1088, 1089, 1090, 1091, 1092, 1093, 1094, 1095, 1096, 1097, 1098, 1099, 1100, 1101, 1102, 1103, 1104, 1105, 1106, 1107, 1108, 1109, 1110, 1111, 1112, 1113, 1114, 1115, 1116, 1117, 1118, 1119, 1120, 1121, 1122, 1123, 1124, 1125, 1126, 1127, 1128, 1129, 1130, 1131, 1132, 1133, 1134, 1135, 1136, 1137, 1138, 1139, 1140, 1141, 1142, 1143, 1144, 1145, 1146, 1147, 1148, 1149, 1150, 1151, 1152, 1153, 1154, 1155, 1156, 1157, 1158, 1159, 1160, 1161, 1162, 1163, 1164, 1165, 1166, 1167, 1168, 1169, 1170, 1171, 1172, 1173, 1174, 1175, 1176, 1177, 1178, 1179, 1180, 1181, 1182, 1183, 1184, 1185, 1186, 1187, 1188, 1189, 1190, 1191, 1192, 1193, 1194, 1195, 1196, 1197, 1198, 1199, 1200, 1201, 1202, 1203, 1204, 1205, 1206, 1207, 1208, 1209, 1210, 1211, 1212, 1213, 1214, 1215, 1216, 1217, 1218, 1219, 1220, 1221, 1222, 1223, 1224, 1225, 1226, 1227, 1228, 1229, 1230, 1231, 1232, 1233, 1234, 1235, 1236, 1237, 1238, 1239, 1240, 1241, 1242, 1243, 1244, 1245, 1246, 1247, 1248, 1249, 1250, 1251, 1252, 1253, 1254, 1255, 1256, 1257, 1258, 1259, 1260, 1261, 1262, 1263, 1264, 1265, 1266, 1267, 1268, 1269, 1270, 1271, 1272, 1273, 1274, 1275, 1276, 1277, 1278, 1279, 1280, 1281, 1282, 1283, 1284, 1285, 1286, 1287, 1288, 1289, 1290, 1291, 1292, 1293, 1294, 1295, 1296, 1297, 12

and renders the construction of even a short line of railroad an extremely slow and costly matter. One needs only to travel along the freight route over which the heavy plant and machinery, originally installed in the mines now under development, was brought by wagon, to form some idea of the difficulties and hardships which had to be faced by these pioneers of the industry, and which must be shared, to a certain extent at least, by those who follow after them.

And yet, despite the obstacles, the difficulties and the hardships which beset the coal deposits, and those who would mine them profitably, the fact remains that these deposits exist and are extremely valuable, and it would indeed be strange if, where the wilderness has been partially conquered, and a railroad carried to within striking distance of new fields, the work of further development should not be carried on almost incessantly. In fact, within the past few weeks a powerful company, known as the British Columbia Coal and Lignite Corporation, has sent a large party of men back into the mountains of the coal branch region to commence the preliminary stages of development of a new mine, situated at a point about midway between the workings of the Mountain Park Coal Company and the Pacific Pines Company.

April, 1915. Mining rights are held over an area of 2,500 acres, which includes several separate holdings. The mine buildings stand on the hillside overlooking the railroad, and from the main tunnel the inclined tracks carry the coal trucks to the end of a well-constructed tippie, from which the coal is discharged on the screening plant and thence into the cars on the track below. The mine yard consists of a three-track layout, which enables three cars to be loaded or unloaded at different points. The coal, screened as it is discharged from the truck, is run into a tippie, which is merely for development purposes, is capable of handling from 200 to 400 tons of coal per day.

The coal obtained from the mine is of good quality. It is a hard, sound structure and does not "weather." It has been employed recently in railroad switches on the C.P.R. lines. In use in the mine buildings it has proved of great value for domestic use. Only one seam is at present being worked, and the company, which, though incorporated, is really a private concern, is satisfied to proceed by slow means with the development of its property. The mine is under the superintendence of Mr. C. Calverley, well-known in the district as a prospector and mineral

height to the level below, without breaking up.

The development of the Yellowhead Pines Mine, like that of all the other Alberta Coal Branch properties, was undertaken by the company organized in the late spring of 1910. The necessary plant was furnished in the summer of 1910, and the mine was opened up in the late spring of 1910. The necessary plant was furnished in the summer of 1910, and the mine was opened up in the late spring of 1910. The necessary plant was furnished in the summer of 1910, and the mine was opened up in the late spring of 1910.

The area of mining land to be developed by the company is a large one, and is situated in a very rich coal deposit. It is estimated that there are 40,000 tons of coal in the area contained in the entire property.

The company's head office is situated in Edmonton, and is under the management of Mr. C. Calverley. The management of the mine is in the hands of Mr. C. Calverley, and Mr. W. Mather, mine manager.

The Mountain Park Mine.

the course it is not intended to suggest that this is some "Gladner's" brand of concrete. The concrete was made by taking out a coal mine. On the contrary, the establishment of a new concrete brand is the result of the expenditure of arduous and untiring effort. The concrete has been made before any return can be looked for by the mine-owner. The country is a rugged one, with a lot of steep, abrupt and rocky mountain-chains, especially in the West. The mountains are deep, precipitous canyons and washed down, steep and "raucous" river-beds. The concrete is made in a machine. It fairly bristles with discus-like and clinoid-like for the engineer, has been used recently by railroad engineers, has been used frequently for the purposes of mine design, and has been used for the satisfaction as regards cost, heat value and abundance of sulphur and asphaltum. The concrete has been used for the establishment of a new brand of concrete. The concrete has been obtained from the higher and lower levels of the mine, and now being mined from these collectors, being high in carbon and volatile matter, and being a good material for use with a clear and steady flame, and being a good material for use in handling hard and therefore clean in condition, while the comparative freedom from sulphur and asphaltum, and the freedom from grates and furnaces with

ing expended in the development of the various mines speak eloquently of the faith that the owners have in the future of the industry. The construction of spur lines through a difficult and mountainous country, the costly transportation of machinery

The present development plant, by means of which 350 to 400 tons of coal per day can be conveniently handled, consists of the necessary engines and machinery for operating the hoist—by which the loaded trucks are brought up from the deeper

The line runs over a long stretch of rising muskeg and prairie country, entering the foothills at Mile 35. The present terminus point is at Mile 27, where there is established a typical western railroad settlement. Beyond this the steel has been laid to Mile 56, and the work of track-laying is be-

Work on the grade is being pushed ahead with the utmost speed, and it is hoped that in six or seven weeks the roadbed may be completed. Unfortunately there has been a considerable fall of snow during the past few weeks on the higher parts of the line and this has greatly retarded the

ed up from mile 27, and are now being installed. The heavy plant and machinery required for the full operation.

MONTENEGRINS AND TURKS IN FIERCE BATTLE

Conflict Waged for Fourteen Hours Without Cessation, Says Report.

BULGARIA AND GREECE CONTINUE PREPARATIONS

Montenegrins Rejoice Over First Victory in Taking Important Mountain Position.

Constantinople, Oct. 11.—Fighting between the Turks and the Montenegrins was still in progress this morning in the region of Tuzhi to the north of Scutari.

Constantinople, Oct. 11.—(Wireless from a steamer in the Adriatic to Kustendie, Roumania).—No fewer than 140,000 Turkish troops from Asia Minor will, it is estimated, be concentrated within a week in European Turkey. This will bring the effective fighting force of the Turkish army to 400,000 men. Turkish officers say that the day of trial has found the military depots full of stores and the army equipment complete and of good quality.

If the Bulgarians are counting on the superiority of their artillery and the greater rapidity with which their army can be mobilized, they will, according to Turkish officials, receive a surprise. The Turkish authorities for months past have been gradually strengthening their forces by concentrating reserves in the important towns comprising Adrianople and Kirmankh, just south of the Bulgarian frontier. Since the general mobilization was ordered a heavy artillery division has been pouring into the district at the rate, latterly, of 15,000 daily.

To Give no Quarter. The Hells, or men of the second reserve, now being brought from Asia Minor are determined ones and for all that the Bulgarians, who have a less favorable opinion of the commanding officers, they have been constantly called from their homes are to receive a sound lesson. They have decided to take no prisoners and to give no quarter.

The Turkish officers recognize the splendid qualities of the men in the ranks of the Bulgarian army and also of their junior officers, but they have a less favorable opinion of the commanding officers.

The Montenegrin efforts in Albania are not taken very seriously here, but the existence of the Greek fleet in the Adriatic is being watched.

Will Christians Fight Christians? The Albanians in the north are expected by the Turkish authorities to keep the Montenegrins busy. Rumors have been despatched to the tribes there and the Albanians have responded that they will fight for the Turks.

The reliability of the Christians fighting in the ranks of the Turkish army is one of the great problems of the moment for the Ottoman commanders. The Armenians are expected to behave loyally, but it is said that it would show ignorance of human nature to expect Greeks to fight against Greek nationalism in Turkey.

To Tax Christians. The feeling among the native Christians can be gauged to a certain extent by their efforts to escape from service by the payment of a tax of by holding abroad. The Ottoman government is considering the putting in operation of the bill passed under the late regime calling out all Christians between the ages of thirty and forty. This action would send the government receipts enormously, as most of the native Christians are in settled positions and well able to pay.

Fighting Lasted 14 Hours. Podgoritz, Montenegro, Oct. 11.—The Montenegrin troops followed up their success in capturing Detina Mountain from the Turks by taking late last evening, the Turkish fort which dominates the town of Tuzhi from Shipchick Hill. The Turks offered a stubborn resistance, but the

EDDIE DURAN IN ENGLAND—Challenge for the world's professional sculling championship, photographed on the Thames course. He is just going for a spin with his trainer, Lou Scholtes, who is in the front seat of the boat ahead.

Montenegrins succeeded in rushing the position after several furious assaults that the Turks repulsed. Both forces suffered heavy losses. In killed and wounded. The fighting lasted fourteen hours. The road to the Turkish town of Tuzhi from the north is now open to the advance of the Montenegrin army.

Grecian Princess to Be Nuptial. Athens, Greece, Oct. 11.—All the cabinet meetings have pointed to war. A cabinet meeting lasting several hours was held this morning under the presidency of the King. Princess Alice, the wife of Prince Andrew, of Greece, has decided to leave at once for the frontier with a number of nurses.

NOW WITHIN STRIKING DISTANCE OF SCUTARI

London, Oct. 11.—According to the Morning Post's correspondent, accounts received with the ground, the capture of Detinich mountain, leaving nothing to doubt that the Montenegrin forces and Scutari occupy a small Turkish garrison at Tuzhi. With ordinary luck, the Turks being in the hands of the Montenegrins, the capture of Scutari would be a matter of time. The Montenegrins with 16,000 men could advance along the plain on the north shore of the lake and get within striking distance of Scutari. King Nicholas, it is believed, is now in the hands of the Montenegrins, and now has the chance of a lifetime. His success, however, would incur Austrian displeasure.

Austria to Stop War

The St. Petersburg correspondent of the Daily Express claims to have heard from an official source that the Austrian and Russian governments are trying to arrive at an agreement to prevent war, or if an outbreak has occurred, to stop it. The reason given is because of Austria's interests in the Balkans. Austria is so delicate that the European concert will not stand the strain of hostilities.

The Express thinks that Count von Bernoth's statement yesterday may be the key to the situation and that under no circumstances will Austria and Russia permit Nisapur to be avoided from Turkey.

Tribesmen Fighting for Montenegro. The Bulgarian correspondent of the Times, in recording the fall of Detinich, says that all through the afternoon a fierce fight raged for possession of the tower stronghold which commands the road to Tuzhi.

Malicious Rumors. According to the account, are fighting on the side of the Montenegrins.

A Balkan dispatch says that the Sultan's demand, expelling the army and Turkish subjects to prepare for the defense of the country, was serious. The troops in the frontier are defending the town against the Montenegrin army. A joint engagement is proceeding.

Servants Join With Bulgarians. The Serbian army will not operate separately against the Turks, according to a Vienna dispatch to the Alps, but is marching through to join the Bulgarians in accordance with the plan for joint action.

From Sofia the Times correspondent says that there is little doubt that King Nicholas ordered the Russian entirely on his own initiative, but that the adventure is not approved by reflecting people.

The crown prince of Greece, says a Vienna dispatch, will leave for the front Saturday in the capacity of commander-in-chief.

DURAN SAYS HE NEVER FEEL FITTER FOR SCULLING RACE

London, Oct. 11.—With the sculling match for the world's championship between Eddie Duran, of Toronto, the challenger, and Ernest Barry now being set for next Monday, interest along the water-side in growing more keen, though most of the experts agree that the Canadian, in an ill-fated career, is a disappointed sculler by his years.

To this Duran replies today: "After he was never fitter. But men covered long stretches yesterday at racing pace, the challenger showing capital speed."

BLACK HAND SOCIETY FAILS TO KILL MAN

Tricked to Blow Up Victim Who Had Moved Away Three Years Before Bomb Was Discovered.

Montreal, Oct. 10.—Vincent Manella, an Italian, who is in business in Victoria, B. C., may be interested when he learns that an attempt was made to blow him up with dynamite here a couple of nights ago for having refused to turn over \$1,000 to an alleged "black hand" association. It was claimed in a letter written to Manella last week, but which never reached him, that he had obtained the money from a sister of a member of the "black hand" by false pretence, and that unless the money was turned over the association immediately he would meet death.

The letter was addressed to Manella at No. 18 St. Mary's Avenue street, the home of Mrs. Papineau, where he was a tenant for five years before leaving Montreal.

The letter, which was signed with the initials "M. C. A. C." could not have been from a fake, as it was attached to movements of the letter.

He left Montreal three years ago. The case and its contents were taken to the detective office by one of the neighbors of Mrs. Papineau.

Detectives Guerin and Charrette went to work on the case yesterday morning, but up to a late hour last night no arrest had been made in connection with the affair.

FOURTY MEN LEAVE CITY FOR THE OIL FIELDS IN NORTH

Well-known Humor of Big strike Causes Small-Sized Suspense to Fort McMurray Dispute.

Shampan, by an apparently well-founded report that a big flow of oil has been struck at Fort McMurray by the Northern Exploration Company, about 40 men left the city on a long trail to the north to file on oil claims.

The news of the oil strike is said to have been kept secret by the company, but the arrival of A. Flinn, Dominion Inspector, in the city and his departure for the north made the matter public. Louis-Guy, Bureau, is president of the company. Of course, the extent of the flow will not be known until the return of the Inspector. C. Rose, one of the directors of the company, also has gone north.

British Shipyard Record.

London, Oct. 11.—British shipyards have established a record in regard to activity. Up to the end of September there were 105 vessels appearing in the shipyard, under construction.

AUDIENCE CHEERS ACQUITTAL OF NURSE

When Young School Nurse Was Acquitted of Child Murder Audience Could Not Be Restrained.

By Inlet Lensed Wire. Kingston, B. C., Oct. 10.—A loud applause during which Mr. Justice Morrison ordered the court room in the audience to be cleared, Miss Mary Robb, a young school nurse, was acquitted of the charge of child murder. The acquittal was directed by the court at the end of the Crown's case without calling on the defense. A tumultuous cross-examination of the doctors by J. W. Tarr, who appeared as counsel for the young woman.

Miss Robb, it was alleged, had been laid in trouble in Scotland by a faithless lover, and came to Canada. She had been employed for some months as a nurse at the hospital at Vernon. She did not confide her troubles to anyone, but as a result of suspicion, Cooper Dr. Morris on September 11 visited the young woman in her room and questioned her. The denial having given birth to a child. On examination the dead body of a newborn infant with a tape tied tightly round the neck was found beneath her bedroom window.

The doctors for the Crown testified that the child had breathed, but under a searching cross-examination by Mr. Tarr they admitted that the fact of its having drawn breath was not inconsistent with the girl's story that the child had died before she had attempted to dispose of its body, and that the circumstances under which it was found—without medical attention—made it very probable that the child would die.

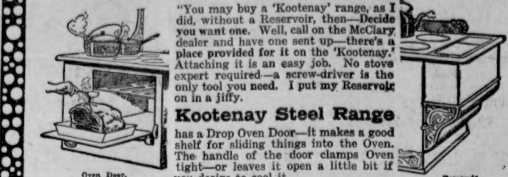

On these admissions his lordship instructed the jury that the Crown could not hope to succeed.

TWO MORE LIBERAL COUNCIL MEMBERS ARRESTED.

Winning, Man, Oct. 11.—The clothing day of the Macdonald campaign was marked by the arrest of B. J. Prime and P. Turcotte, Winnipeg law students, who were arrested by the provincial police at Notre-Dame de Lourdes this morning.

On the same day, the two students are being brought to the provincial jail here.

Range Talks By The Housekeeper No. 4 - Subject - More Important Features

"You may buy a 'Kootenay' range, as I did, without a Reservoir, then—Decide you want one. Well, call on the McCrary dealer and have one sent up—there's a place provided for it on the 'Kootenay.' Attaching it is an easy job. No stove expert required—a screw-driver is the only tool you need. I put my Reservoir on in a jiffy.

Kootenay Steel Range has a Drop Oven Door—It makes a good shelf for sliding things into the Oven. The handle of the door clamps Oven tight—or leaves it open a little bit if you desire to cool it.

"The 'Kootenay' Warming Closet is bigger and better than ever. The 'Lift' door allows every inch of space to be used and you can depend on it keeping food nice and hot.

"The Broiler Door on the 'Kootenay' is roomy—large enough to broil a steak to perfection. You can reach the fire through this door without any disturbing cooking on top of Range.

"It's easy to fit the 'Kootenay' with an ideal hot water equipment—one that will not increase fuel consumption in the least.

"The 'Kootenay' Range the best you can buy, and the—Price is reasonable—just about what you'd gladly pay for a perfect cooking and baking range."

ROYAL PARTY STOPS AT MEDICINE HAT

Duke Lays Coronation Party in New Headed East.

Medicine Hat, Oct. 11.—The Governor-General's party on arriving eleven o'clock this morning found a great concourse of people of this place and the surrounding country assembled to cheer the Duke, the Duchess and Princess Patricia on their alighting from the royal train. The distinguished visitors made a stay of only two hours, but in that time there was ample proof given of the fact that their visit was greatly appreciated and aroused great public enthusiasm.

The chief event of the program was the laying of the foundation stone of a new public school by the Duke. The royal party left at one o'clock, the next stop being made at Moose Jaw, where the royal train will arrive at ten o'clock tomorrow afternoon.

The regular meeting of the Fraternal Order of Eagles has been postponed until Saturday, October 13th. The meeting will be held in the new club rooms at the Grand View hotel.

Pen-Angle Sweater Coats

The proof of a sweater coat is in the wearing!

To the most critical eye, a Pen-Angle Sweater Coat excels any other kind in the evident care with which it was so beautifully knit and finished. The trying-on test shows it has the stylish look and snug smooth fit you demand of your outdoor apparel. Examination of the material reveals the supreme quality of the wool yarn that makes it so fleecy, light and warm. But neither of these three superficial tests can prove how worthy these knit garments are of your preference and the famous trade-mark they bear. That proof is in the wearing of them under every outdoor condition—for hunting, for boating, for golfing, for skating, for driving, for walking. Since the Pen-Angle process knits them perfectly into lasting shape, they remain smart looking and neat-fitting; and

the wear is there.
